		Crude Fiber (Max)	30.0%
		Moisture (Max)	12.0%

Feeding Instructions — Stampede Timothy Alfalfa Cubes

Stampede Timothy Alfalfa Cubes can be fed as is right out of the bag or soaked to facilitate mixing a grain and forage mash. However, soaking is not necessary.

Substitution: Substitute normal hay with Timothy Alfalfa Cubes on a weight-for-weight basis.

Feeding Options: Timothy Alfalfa Cubes can be fed as the sole forage source, used as part of a forage program or fed as a treat.

Placement: Feed at ground level in the pasture or in your horse's designated feeder.

Daily Quantity: When fed as the sole forage source, feed at least 10 pounds or more per horse per day. The amount to feed should be adjusted based on the weight of the horse. Feed a minimum of 1.5% of the horses body weight in hay cubes.
