Weight: 40 lbs (18.14kg)		Crude Fat (Min.)	1.8%
		Crude Fiber (Max)	35.0%
		Moisture (Max)	10.0%

Feeding Instructions — Stampede Timothy Grass Pellets

Stampede Pellets can be fed as is right out of the bag or they can be soaked to facilitate mixing a grain and forage mash. However, soaking is not necessary.

Substitution: Substitute normal hay with Pellets on a weight-for-weight basis.

Feeding Options: Stampede Pellets can be used as part of the forage program to supplement pasture feeding or extend available hay sources. Be sure to feed the equivalent of at least 5 pounds per day of pasture and/or hay when feeding Pellets.

Placement: Feed at ground level, either in the pasture or in your horse's designated feeder.

Daily Quantity: When used as the sole forage source, provide a minimum of 10 pounds per horse per day. Adjust the amount as needed to maintain your horse's ideal nutritional needs and energy level.
